Hi Folks,

I'm very glad to see WAP Bulletin having found another friendly house!

I'm proud to recall that our 1st Antarctic Bulletin was edited the 10th of February 1991. A lot of things did happen since that time, but nevertheless now we have edited nr. 157 and we'll continue. Some years ago, we have thought about an International Antarctic Program, not belonging to a person, to a Group of people, nor to a Society or a Club.

What we were looking for, was something belonging to the WW HAM Community, to the Radio Amateurs and friends who enjoy dealing with the 6th Continent, with Antarctica.

World Wide Antarctic Program was the name we have decided to use, and it is still alive. I must say all of you: thanks immensely for supporting this idea. Special appreciation for the great help, has to be adressed to

K4MZU, WD8MGQ, DL5EBE, VE6VK, VK6LC and many other well know Dxers and Antarctic chasers. To the patient John Van Putten WD8MGQ in particular, good guy and gentleman, for the long time hospitality on the US web site <http://www.islandchaser.com/wap/>, I would like to adress my personal appreciation.

Now, a page has been turned, and talking with Egidio IZ8BRI, we discovered his web site, which is a kind of a free house for DXer, in other words, it is an indipendet and World Wide oriented DX web, able to help hour hobby.

I enjoy freedom, we enjoy freedom!

I think, the idea to set up here an Antarctic section, was great and many of the visitors, have already expressed their appreciation. WAP bulletin and an Antarctic Gallery are on... good goal indeed! For this simple reason, I want to thank IZ8BRI for his very skilled job done to serve the DX World, and Antarctica as well.

To everybody I would like to say: join us; several new pages will be on shortly and other ideas are cooking on, stay with us and enjoy DX!

Sincerely
Gianni I1HYW

E-mail - From Dom DL5EBE

"I have the big pleasure to announce that after a long time of waiting the special edition of ZS7/ZS4AGA QSL cards for Anton's operation from E-Base sponsored by GDXF and QSL-Shop is now available. The cards will be answered this week-end and will be sent out on Monday. In the meantime I have also received the still missing log section of Anton so that all who asked for a card will get their QSO confirmed, regardless if requested via buro or direct."

EM1U - From Dom DL5EBE

Maybe you have noticed that our friend Roman UT7UA (ex. VP8CTR, EM1KA) is now officially operating with his own call sign EM1UA additionally to EM1U, which is the club call from Vernadsky Base. QSL for EM1UA via JA2JPA as for EM1KA.
